

In the Laboratory for **Paediatric Cancer Immunology at the Clinic for Paediatric Hematology and Oncology at the University Children's Hospital Bonn** is available the position of a

Postdoc (m/f/d) (part or fulltime)

The focus of the research program resides in assessment of registered therapies including the modulation of anti-neoplastic immune responses in childhood cancer.

The projects are geared towards preclinical assessments immunotherapy approaches in combination with novel target-therapy agents in childhood cancer and leucemia.

The ideal candidate is a highly motivated, team-oriented individual with strong interest and expertise in the field of immunology and/or a well-founded molecular biology background in signal transduction or epigenetics. Experience in animal models would be a definitive advantage. Documented skills in scientific publication are a prerequisite.

The position is awarded immediately and announced for a period of two years, with the possibility of extension.

We offer:

- The salary will be according to the German salary scale TV-L (EG 13)
- A "Jobticket" (subsidized public transport) is available
- There is also a possibility to use the day care center
- Supplementary benefits in the public sector (pension plan according to VBL)

The University of Bonn is committed to diversity and equal opportunity. It is certified as a family-friendly university. It aims to increase the proportion of women in areas where women are under-represented and to promote their careers in particular. It therefore urges women with relevant qualifications to apply. Applications will be handled in accordance with the *Landesgleichstellungsgesetz* (State Equality Act). Applications from suitable individuals with a certified serious disability and those of equal status are particularly welcome.

Interested applicants should forward a letter of interest, curriculum vitae and contact information of two references until three weeks to the director of the department. Please refer to the reference number 155_2019.
